There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and presorbed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Many people were pained Monday on hearing of the death of George H. Smalley, which occurred at his home on South Union street at 8 o'clock in the morning. Three years ago he had an attack of the grip, resulting in consumption, and spent some time in the Adirondacks, which seemed to benefit him. During the winter however, he has been gradually falling, but at the same time refused to give up his business affairs. These he attended to with his accustomed energy until about two weeks ago when he was compelled to the state of the same of the remain in the house. He seemed to be improving and Monday morning when he arose he told his wife that he feit better than usual but within an house was non taken with a hemorrhage and at once \$3.
